

HW-Zuschneid-Kreissägeblatt
HW Rip Saw Blade

2005 LF

- ✓ Für Längsschnitte in naturfeuchtem Massivholz weich und hart
- ✓ Einzusetzen auf Tisch- und Vielblattkreissägen
- ✓ Flachzahn mit großem Spanraum
- ✓ Für thermoplastische Kunststoffe in großen Abmessungen (evtl. Schutzfase anbringen)

- ✓ For ripping in unseasoned solid soft- and hardwood
- ✓ For use on bench saws and gang saws
- ✓ Flat tooth with large gullet
- ✓ With this saw blade, you can also cut thermoplastics in larger dimensions very well (to get a better cutting quality, a protective chamfer can be attached at the teeth)

D	B	b	d	Z	Form	⊕ ⊖ ⊕	Best.-Nr./Part No.	⊞	Euro
250	3,3	2,0	30	18	F	CNL	2005.250.30		85,50
300	3,5	2,2	30	20	F	CNL	2005.300.30		89,00
300	3,5	2,2	70	20	F	DKN 20x6	2005.300.70	A	93,50
400	4,2	2,8	30	28	F	CNL	2005.400.30		138,00
450	4,2	2,8	30	32	F	● CNL	2005.450.30	A	187,50

CNL = Combi-Nebenlöcher / combined pin holes (2/7/42 + 2/9/46,4 + 2/10/60) = ⊕ ⊖ ⊕
 ● = mit Kühlschlitzen / with cooling slots
